

Welcome to the NEW District Website

The new, easy to navigate site has exciting District news and initiatives, an interactive calendar, photos from across the District and a responsive design that allows access from mobile devices to desktops. In addition to our brand new home page, you will also find new sites for each of the seven schools.

The home page is filled with District information and updates. Drop down menus include Board of Education, District, Departments, Schools, Parents, Students, Community and E-Boards.

To assist you in navigating through the site, here are a few tips:

- My lunch money and lunch menus are located on the home page under Departments and Food Services. The links can also be found under Parents on the home page as well.
- An interactive calendar is available on all web sites. Events and activities are listed by date and time.
- The Parent Portal is listed on the District home page under Parents and also under Parents on all school sites. A quick link is also available at the bottom of all school sites.
- A search bar in the upper right corner of the site will assist you with locating specific requests. If you are having trouble locating something, just type in your subject and the site will locate your request.
- Eboards are available on the main navigation bar of each of the school's web pages, as well as on the District's main navigation page.
- Important District information will be posted on the District home page under Announcements.

We appreciate your patience as we continue to update and improve the new website over the next several months, and hope you enjoy the new look of the new Longwood School District site!
